

What is the color of wonder?

Rainforest Fun Facts

Toucan:

Toucans are big, noisy, colorful birds... but their patterns help them hide.

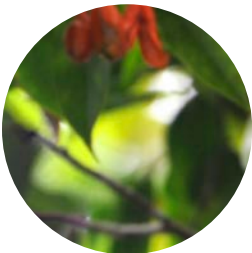

Butterfly:

Butterflies will flash their colorful wings to startle you if you get too close.

Monkeys:

Howler monkeys eat mainly fresh, green leaves and grow to be some of the biggest monkeys in the rainforest.

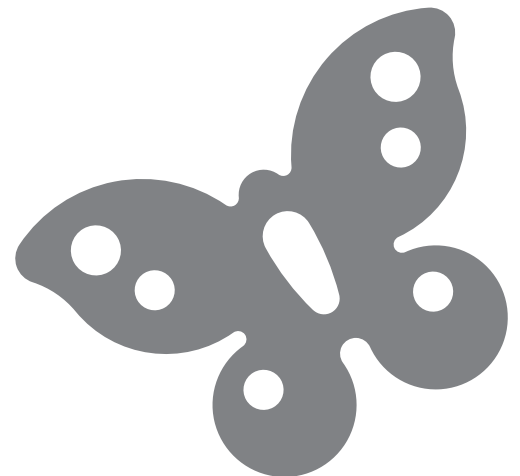

Leaves:

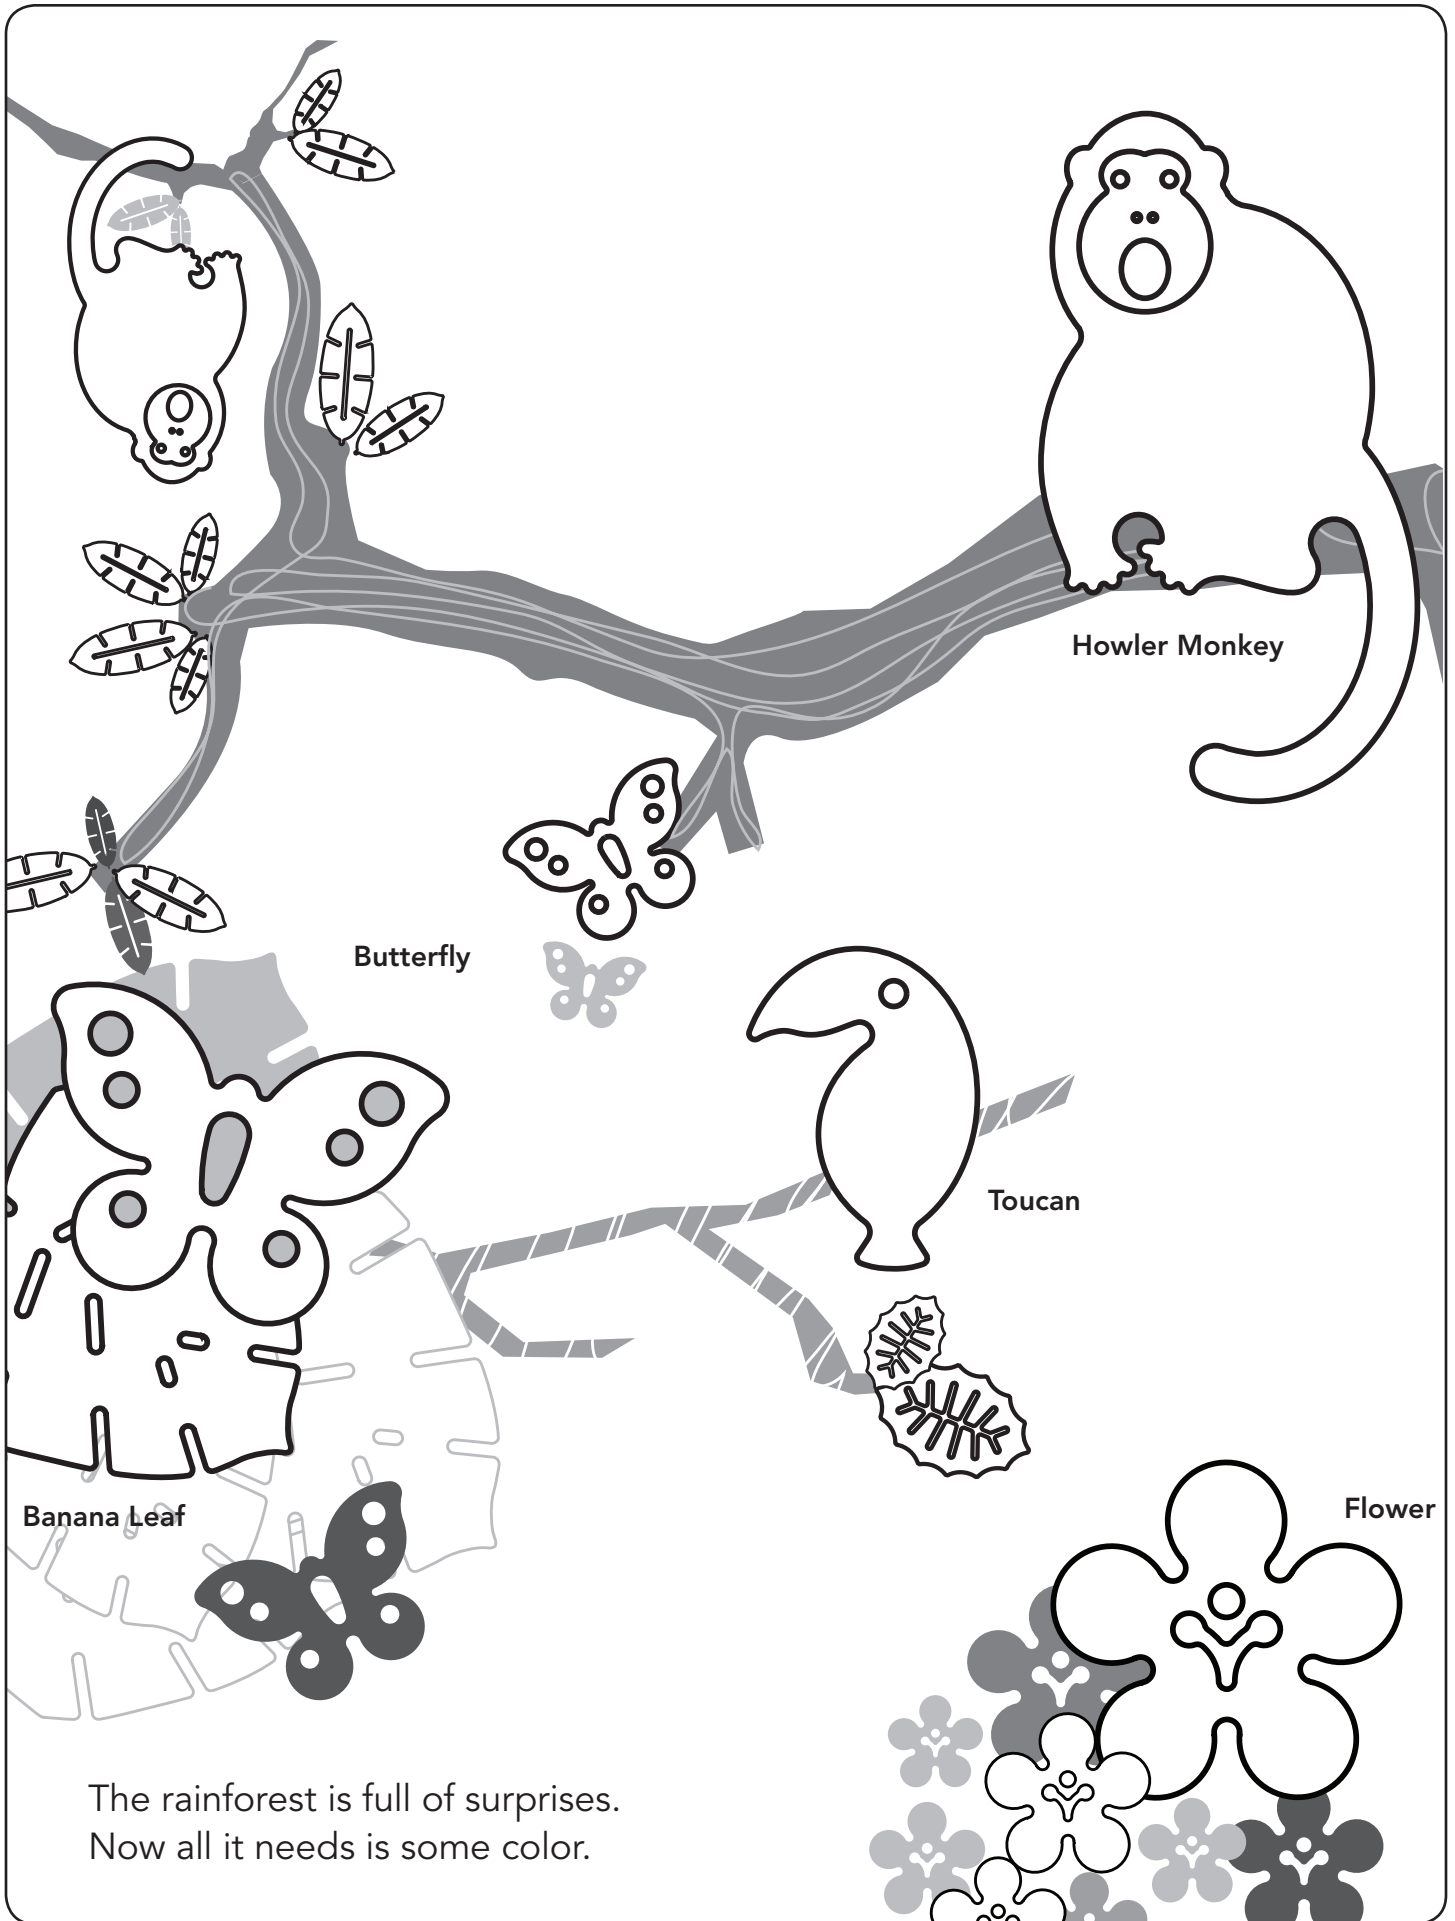

Banana leaves can be used to catch a fish... and cook it.

Flowers:

Some flowers in the rainforest look much prettier than they smell.
